

Pop is a three dimensional, form pressed plywood element for modern interior decoration with wood.

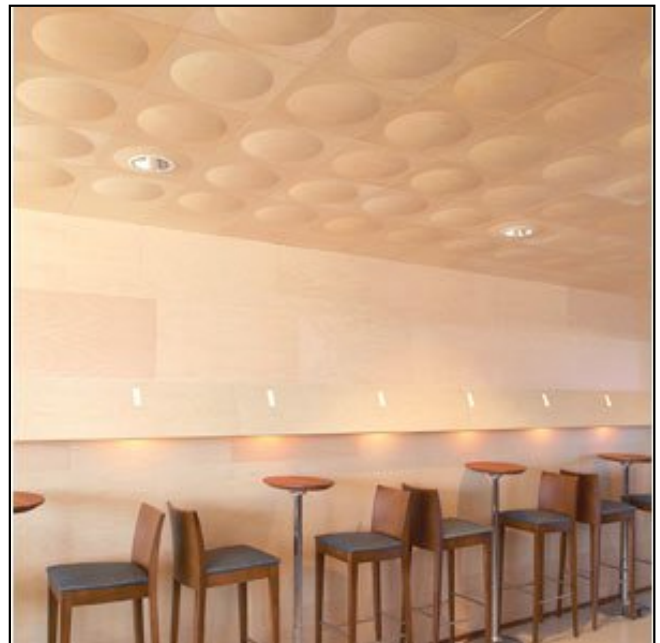

- Manufactured in Finland with strict adherence to environmental standards and best practices. Distributed locally from High Point, NC.
- Panel Dimension 15 3/4 X 15 3/4 .
- Panels are unfinished sustainable birch veneer.
- Finishing can be done locally or by contract with Hightower.
- Matching flat panels are available as a special order product.
- Smaller 1/4 scale panels also available special order, dimension 7 7/8 X 7 7/8
- Panel elements are mounted with concealed aluminum fittings which provide a neat edge. Fittings are included in panel price and shipped complete. No reveal between panels.
- Elements can be applied as wall decoration, ceiling detail or as a material for construction of furniture or custom designed products.

POP panels provide warmth and decorative interest to a wide range of environments.

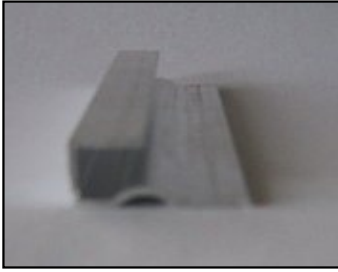

The ability to access unfinished birch panels and stain to match wood finishes, corporate or university colors is an added plus.

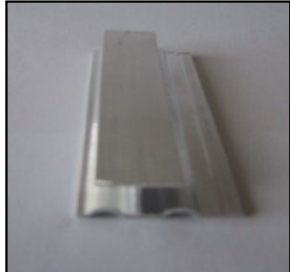

Pop Panels

POP Panel Aluminum Installation Fittings

Single Edge

Dual Connection

Model #		Net Price
B41	POP Panel 15 3/4 X 15 3/4 Unfinished Birch	58
FB41	FLAT Panel 15 3/4 X 15 3/4 Unfinished Birch	58
B21	POP Panel 7 7/8 X 7 7/8 Unfinished Birch	29

Fast Track Installation Profiles

Pop Panel pricing includes installation hardware. Several one foot aluminum profiles are shipped in each case.

To improve installation time by 70% - 80% we suggest purchase additional "Fast Track" profiles (5 feet in length). This will allow multiple panels to install on one longer profile.

FT100	Fast Track EDGE profile – 5 Feet	22
FT150	Fast Track INTERMEDIATE profile – 5 feet	22

Hightower Group can quote on panel finishing on a project specific bases. The majority of projects are finished locally by the installing millwork/installation company.
