

HON

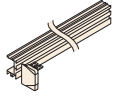

SMARTLINK™
Wall Rail System

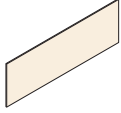

BRAINSTORM ON ANOTHER LEVEL

The SmartLink wall rail system from HON has three levels of whiteboards that slide on rails, providing extra writing and display area without taking up extra wall space. It makes meetings more productive and presentations more compelling. Suddenly, that big board in your conference room seems a little one-dimensional.

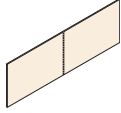

PRODUCT OVERVIEW

RAILS
12' multitrack rail (1)
Wall brackets (9)
End caps (2)
LWR-12

FIXED WHITEBOARD
144"W x 48"H

CREATIVE

Ideal for meeting, training, and conference rooms. Three levels of overlapping whiteboards—a fixed rear layer and sliding middle and front layers—provide the space you need to expand the creativity of your team.

RESOURCEFUL

Slide one board in front of another without having to erase. Flesh out ideas, assign tasks, create to-do lists, present plans, display materials, save notes for later—there's plenty of room.

REVERSIBLE

Sliding boards are easily reversible. Choose between porcelain-over-steel whiteboards on both sides or a whiteboard on one side and a fabric-covered tackboard on the other. Whiteboards accept magnets for even more versatility.

PRACTICAL

Attach optional accessories to keep markers and other small supplies handy. Or mount a worksurface to hold training and presentation materials.

COORDINATED

The wall rail system features the same contemporary styling, palette, and rounded edges of other SmartLink components for a unified look.

SURFACE MATERIAL SUMMARY

Component Type	Color & Code
Rail	Platinum Metallic (T1)
Worksurface	Muslin (T3) Reflection (T6) Light Gray (Q)
