

ZO™

ZO™ STORAGE & MIRO™

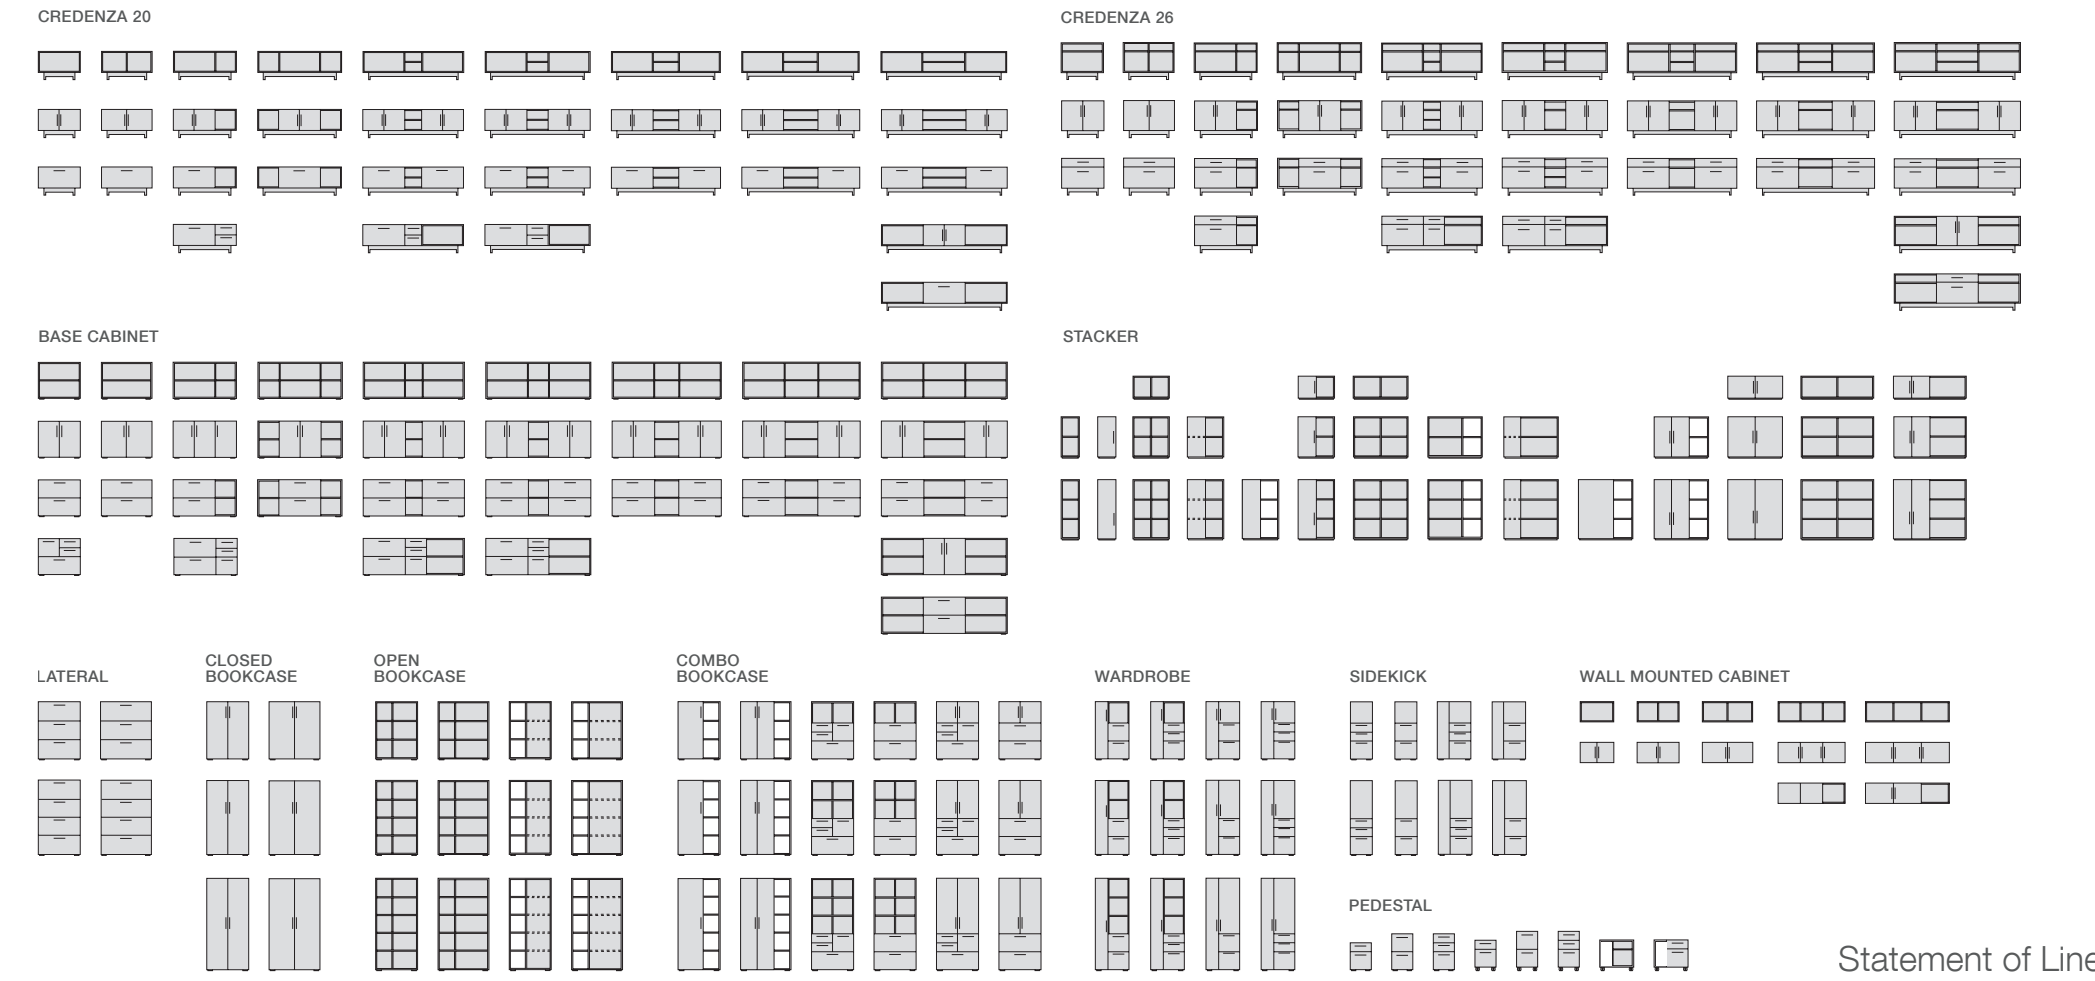

ZO™

ZONES (zōnz) AREAS
WITH PARTICULAR
CHARACTERISTICS
PURPOSE OR USE

ZO, Watson Desking's new universal storage line, creates **modular zones** for organization, storage and display. Combined with **Miro desks**, ZO's low credenzas and freestyle stackers evoke modern sophistication ideal for the **private office** or the **open plan**.

Designed for modern work, ZO complements Miro with storage solutions that are efficient and smart. Miro's Viga Square table nests with ZO's credenzas and open-stackers to create a functional space with aesthetic dimension.

At Watson Desking, we have an obligation to serve our customers without sacrificing the environment. This dedication to stewardship is present in every facet of the business. By partnering with local and sustainable suppliers, Watson delivers quality furniture with well-thought design and low environmental impact. This approach to practical environmentalism creates a product that is high in recycled content and, in turn, may be recycled again. Located in the Pacific Northwest, Watson is a leading manufacturer of European-inspired office furnishings serving customers with a unique, stylish offering of modular, freestanding and height adjustable furniture. The Watson product offering includes furnishings for the private office and open plan area, as well as conference and learning environments. Watson's 50 year heritage and advanced business approach are united by a strong set of core values that guide every aspect of its operation.
