Inspired by the classic design aesthetic of the mid-twentieth century, the Dialogue chair and ottoman provide an intuitive and purposeful solution for casual conference and lobby scenarios. Simple yet functional, the lounge chair features an integral task surface on the arm. Addressing today's need for a readily available work surface beyond the traditional table, Dialogue is ideal for transitional to progressive environments.

The Dialogue Series

5103-30 | The Dialogue integrated arm work surface is purposeful, not an add-on, allowing a range of motion without forcing the user to move task work. While task-oriented, Dialogue is equally suitable for casual lounge scenarios.
